Haklift electric chain hoist 230 V

Product information

The Haklift 230 V electric chain hoist is a lightweight and compact lifting solution for professional applications requiring reliable and efficient load lifting from a standard mains power supply. Its aluminium housing makes it ideal for workshops, production facilities, warehouses, and installation sites. Thanks to its compact design, the hoist is easy to install. It is also available with a longer control cable and load chain. A wireless remote control is available as an optional accessory and larger chain bags (see spare parts). For more information, please contact our sales team.
