

Material handling bin 2000 kg

Product information

Goods transport basket with ramp for safe lifting of materials and equipment weighing up to 2000 kg on construction sites and in industrial environments. The basket is equipped with a sturdy ramp that facilitates loading and unloading of pallets with a forklift or pallet truck. The ramp is hinged and lifts up vertically against the basket body. Equipped with four lifting points. Can be used with either a lifting chain sling or a crane fork.
