Drum vertical lifter 1 t

Product information

The Haklift drum lifting sling is a mechanical lifting device designed for the vertical handling of for example 200 liter drums. It enables safe lifting directly from the upper rim of the drum using jaw/clamp mechanisms, while offering fast and easy operation.

The drum clamp is suitable for use in warehouses, industrial facilities, and production environments. The clamps are permanently integrated into a 2-leg chain sling and are suitable for different drum sizes equipped with a durable top rim.
