

Double decking system XTRA-DECK DPA - standard set

Product information

The DPA system, like the ATD system, allows the load capacity of the van to be doubled by adding a second level by means of beams. The height of the double deck is adjustable. The beams slide into rails fixed to the walls of the van. DPA system : for fixing on the wall. The rails are fixed directly to the walls without modification. Below you may see configuration of standard setting.

Material: Aluminium

Marking: Piek

Part code	Description	Packing Qty.
14.5032020008F	Decking beam DPA LC 1000 daN	23
14.5032010002F	Double decking single track DPA - lenght 1785 mm	2
14.5032010004F	Double decking double track DPA - lenght 1785 mm	22
14.5032020006F	Double decking rod	1
14.5032010008F	Pin for limiting beams (optional)	46
14.5032010007F	Double decking rod holder	1
